

Move your existing VMware perpetual licences to a flexible VMware consumption-based licensing model.

Simply follow the 5 steps below to get started, and we'll support you through every step of the journey.

Replace existing licence keys with new consumption keys

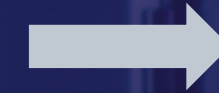

Install / configure VMware usage meter

Run monthly usage reports and send to UKCloud

Review usage against prepay amount (top up if required)

Call UKCloud for all support enquires or issues

Benefits

- **Flexibility** - Allows cost effective testing or adoption of new VMware technologies without committing to perpetual licences
- **Scalability** - VMware metered licensing is entirely flexible so can scale up and down as your needs evolve
- **Financial efficiency** - Choice of annual or monthly payment with incremental discounts delivered for annual payment
