

70%

Public sector data in an unknown dark state. Often kept in **expensive** repositories, backed-up and copied many times

Your data is not only valuable but often contains **sensitive, personal and critical information**

Lack of comprehensive data lifecycle management means organisations are vulnerable to **compliance failures**, and ransomware attacks

92%

Amount of UK data held on **foreign platforms**

UKCloud's **Data Assessment Service** provides analysis and insight:

**VISIBILITY & CONFIDENCE**

Provide analysis and insights from a subset (20TB) of unstructured file data into:

- Cost savings
- Risk mitigation
- Compliance mitigation

**PLANNING & CONTROL**

Create prioritised and costed solutions to improve efficiency and address risks:

- Future state model
- Strategic roadmap
- Business case mitigation

**INSIGHTS & CLASSIFICATION**

Map data locations and volumes of unstructured data:

- Data stores
- Backups
- Off-site copies
